WEDNESDAY, APRIL 11, 1866.

We do Mr. Clymer the justice to say that during his long period of service in the Senate he has commonly been liberal in supporting railroad projects. But he lives in Berks county; and there is no more strenuous opponent of a General Railroad Law in this Commonwealth than the Reading Railroad Company. How much less Mr. Clymer is likely to be swayed by local influences than other men, we do not care to speculate. But, it is a good time to put him on the record. Not that we think he has a chance of being elected Governor; but he now holds a position which forbids his keeping silence or equivocating on that subject, if interrogated. Will the catechists do their duty in the premises?

The final passage of the Civil Rights Bill gives great satisfaction to loyal men throughout the country. This satisfaction proceeds from several causes. Some persons are glad because Congress has won a triumph over the President. Not that they feel complacency in the humbling of the Executive; but they believe a sharp assertion of the authority of Congress needful to vindicate and preserve the principle of representative government. Other persons rejoice because they think a measure of this sort essential to secure justice to the emancipated slaves, if not to prevent, in some of the States, a species of servitude akin to Slavery.

In private conversation, of late, the President has frequently said he was reserving five hundred rebel leaders for trial and punishment. We have not invested much faith in these assurances; partly because we have not desired the drama of the war to close out with five hundred executions; and partly because we have felt certain the President did not mean to vindicate the authority of the laws by trying and punishing any rebel. The rumored release on parole of Jefferson Davis and Clement C. Clay, tends to confirm our distrust.

If any man believes the defeat of the Cleveland and Mahoning Railroad bill was inspired exclusively or mainly from Philadelphia, he is decidedly mistaken. The original and controling influence proceeded from Pittsburgh. Let us be just; and not lay on the Pennsylvania Railroad Company more than it ought to bear.

The Conservatives in England are likely to obtain a triumph in defeating the Suffrage Extension Bill. Over there conservatism does not want poor whites to vote. Here it stops at seeking to prevent the blacks, rich and poor, from voting.

The Cholera is coming. Pestilence will glean this season where the scythe of war harvested for four years.

CITY ITEMS.

Interesting to the Ladies.

Those who have read the reports of the dry goods market for the last few days are aware that a great many kinds of dry goods, and especially those of foreign manufacture, as silks and other dress goods, have been offered and sold at forced sales in the auction room, and that as a consequence the knowing ones among the merchants have received some most unusual bargains, and it is our pleasant duty to inform our lady readers that Pittsburgh is to have a large share in these bargains. How desirable the goods are, how cheap, they may know by calling at the establishment of the Messrs. Barker & Co., 58 Market street. By their unequalled arrangements for purchasing, being always fully represented in the market by the most experienced buyers, they have received a very large quantity of silks and dress goods, which they propose offering at bargains, which will be best understood when we say that in some grades of silks the reduction is one dollar and a half per yard, bringing down prices to rates ruling before the war. We have now no hesitancy in recommending our readers to buy and to buy freely, as there is no danger of further decline, but every probability of a slight advance in prices.

Malaria Everywhere.

Rarely has there been a season as fruitful as this of malarious diseases. Not only on the praries and in the valleys of the West; not merely in all the old haunts of Fever and Ague and Billious Remittent Fever have these prostrating diseases been unusually virulent; but they have extended to towns and cities never before infested with them, and have even ascended the mountains and attacked thousands of people supposed to have been placed by the laws of Nature above their reach. Hence we are compelled to admit that a fatal element pervades the Universal Air this season, and should at once resort to the only approved preventative of its consequences, Hostetter's Stomach Bitters—a tonic so potent, an anti-septic so perfect, an alterative so irresistable, and a stimulent so pure, that it enables the human system to resist and baffle all the predisposing causes of disease. With the confidence that one clothed in incombustible garments might move among blazing buildings, the man who arms himself against malaria with this powerful *defensive medicine* may walk a fever-scourged district fearless of its insalubrious atmosphere. The intermittents and remittents at present so general in all parts of the country may be but the forerunners of a deadlier scourge now on its way westward from the far East. Prepare the system with Hostetter's Bitters for a successful battle with the mephitic causes of *all epidemics*. Be wise in time. Sold everywhere.—*New York World*, Nov. 6, 1865.

THE FENIAN MOVEMENT.

The Campo Bello Expedition.

COMMUNICATIONS CUT OFF.

The Inhabitants Skedaddling.

FENIAN CONVENTION IN SESSION.

EASTPORT, ME., April 10.—The British war ship Pleiades, arrived here yesterday, and went to St. Andrews.

The British Consul and the United States Marshal, are at Maybee's Hotel; also, prominent Fenians.

Communication between St. John's and the Western towns on the British side, was destroyed last night by the Fenians. The garrison at Campo Bello has been increased. Earthworks were being thrown up all day yesterday. The Fenian Convention is sitting. The hotels and boarding houses are crammed with Fenians, who arrived from New York to-day. The inhabitants are skedaddling from the border and coming here. The firing of small arms and rockets is continually occurring, and there is a perfect panic. There is a bad feeling on either side of the Bay. Two more English war ships are reported steaming to the northeastern headland of Campo Bello. A Fenian vessel with howitzers and other arms, was not allowed to go out of the harbor at twelve o'clock last night, by order of the officer of customs. The Fenians are confident and cool. Matters are in *statu quo*, awaiting further orders.

Fredericton, N. B., April 10.—Information regarding the Fenians is of such a nature as to warrant the authorities here in placing the frontier in a more effectual state of defence. Last night some men, ninety in number, endeavored to ship sixty cases of rifles and thirty cases of small arms from Portland for Eastport, which is opposite Campo Bello. The agent of the steamer refused to receive the arms, but the men came into Eastport. Troops and a gunboat have been ordered from St. Johns to Campo Bello. One company of volunteers left Woodstock last night, and another starts this evening from this place for St. Andrews.

CANADIAN PROVINCIAL PARLIAMENT.

THE CONFEDERATION BROIL.

Preparation of Government Officers.

A PARTIZAN WARFARE.

FREDRICKTON, N. B., April 10.—The Lower House met this afternoon for a few minutes. The Attorney General announced that the Government officers had tendered their resignation and were awaiting a reply. The Governor is expected to send in his answer to-night. In the meantime he has chosen Mr. Wilmot, of the Opposition, to form a new Government. The excitement is still very great. Several personal encounters have taken place in the streets between the partizans of either side of the question. In one of the most desperate of these, last evening, blood was freely shed. The gunboat Pleiades, of the coast squadron, has been ordered from St. Johns to Campo Bello, to watch the Fenians.

A Toronto special states that the arrest of Murphy causes some excitement. The Secretary of the Hibernian Society was also arrested. A general search is making for treasonable papers and arms. Eight men who were armed have been arrested at Cornwall. The excitement is increasing.

Later from Europe.

PORTLAND, ME., April 10.—The steamer Belgian, Capt. Brown, from Liverpool on the afternoon of the 29th, via Londonderry on the 30th, arrived here at 6:30 A. M. to-day.

The London *Times*, of the 30th, says: There is too much reason to fear that the peace of Europe is about to be broken by one of the least just and least necessary wars of modern times. The *Times* heartily trusts that England may hold aloof.

Half a dozen war vessels were preparing for sea at Plymouth, and it was reported were to go to the St. Lawrence.

The language of the Prussian press, by evident direction of the Government, is warlike, and great military preparasions are being made throughout the kingdom.

The Austrian government is also taking measures in anticipation of the coming struggle. Austria is said to have determined to put an end to the provisional state of affairs in the Duchies, and, if necessary, will propose the question be referred to the European Congress.

The *Independence Belge*, of the 29th, has news that the King of Prussia has given his consent to certain military arrangements, which, though only preliminary, indicate war almost inevitable.

The rate of discount on the Bank of England remains at 6 cents.

The apprehension of trouble in Germany and the Fenian agitation in America, continued to depress the funds, and it was remarked that consols, on the 20th, touched a lower point than has been known since the commercial crisis of 1857.

PRUSSIA.—German journals continue to discuss, with keen interest, the probability of a war between Austria and Prussia. Nothing has as yet transpired to throw any light upon the eventual issue of the quarrel.

The *Post* thinks that Count Besmarck is not likely to fail when the chances of accomplishing his object are in his favor.

Prussia has forwarded a circular dispatch to the minor German States, laying stress upon the inefficiency of the appeal to the federal district to settle the present conflict. The dispatch further points out the necessity of the various States taking up a definite position on one side or the other in the struggle which the movements of Austria seem to render more and more imminent.

The Berlin journals represent that the Austrian preparations are very extensive, and some of them admit that in view of the Austrian preparations, orders may have been given by Prussia to make such military preparations as may be indispensable.

Vienna advices assert that Austria has determined to put an end to the provisional state of affairs in the Duchies, and if necessary will propose that the question be referred to a European Congress.

JAMAICA.—The Royal Commissioners were bringing the investigation to a close, and expected soon to leave for England. The most important evidence obtained during the last fortnight had been respecting the extent of the so-called rebellion, and how far Governor Eyre was justified in the assertion that the conspiracy was general.

Jeff. Davis—The Canadian Confederation Scheme—Head Centre Stephens Expected—Mr. Peabody.

NEW YORK, April 10.—The *Herald's* Fortress Monroe special dispatch says: A rumor at Fortress Monroe whispers that Jeff. Davis is to be removed to Richmond on a writ of habeas corpus. Fears are entertained that he cannot live through the coming summer if not released, as his health is growing worse.

The *Herald's* Fredericton, New Brunswick, special says: In the Upper House, yesterday morning, the anti-confederation minority presented a protest against the resolution of Friday and the address to the Queen. The Lower House adjourned until three o'clock to-day, when the members of the Government, who have been in consultation all day, will, it is reported, send in their resignations. The excitement is still very great.

There was much excitement at Union Square Headquarters yesterday. The Fenian dignitaries were busily engaged in making preparations to greet Head Centre Stephens, who is to arrive on the Havre steamship, due at this port to-day. James Stephens' visit to this country will be of short duration, depending entirely on absolute and predetermined arrangements. The real cause of his visit will be withheld until the eve of his departure.

Mr. George Peabody writes by the last steamer that he intends to take passage for New York in the steamer Scotia, which leaves Liverpool on the 19th of April.

Tennessee Legislature.

NASHVILLE, April 10.—Legislature—No quorum being present, the Legislature adjourned

CONGRESSIONAL PROCEEDINGS.

WASHINGTON CITY, April 10.

SENATE.

Mr. Saulsbury presented a resolution reaffirming the resolution adopted by the Senate in July, 1861, that the war was conducted for no other purpose than to re-establish the Union with the rights of the States unimpaired, and endorsing President Johnson for his efforts to restore peace and harmony on that basis.

Mr. Sumner objected to the present consideration of the resolution, and it went over.

Mr. Saulsbury gave notice that he would call up the resolution again on Friday next.

The bill to reimburse the State of Pennsylvania for war expenses was passed.

The bill to grant $100,000 of the public lands to aid in constructing a ship canal from Lake Superior to Lac La Belle, in the State of Michigan, was passed.

Two thousand copies of the Coast Survey Report of 1865 were ordered to be printed.

A resolution was adopted that the Secretary of the Senate present to the Secretary of State an attested copy of the Civil Rights bill, as passed by a two-third vote of both houses.

The Committee on Post Offices reported the bill to amend the postal laws, which increases the fine for defacing or injuring mail matter, or letter boxes, from $1000 to $5000, as a substitute for the Senate bill.

The bill making a grant of lands to aid in the construction of the Southern Minnesota Railroad, passed.

The Senate, after executive session, adjourned.

HOUSE.

Mr. Chandler, of New York, stated that if he had been present yesterday, when the vote was taken on the Civil Rights bill, he would have voted in the negative.

Mr. Driggs, of Michigan, stated that he had been called out by unavoidable business yesterday, and was absent but twenty-seven minutes; when he came back the bill was passed. Any one who knew him knew that he would not have dodged the question if he had been present. He would have voted aye.

Mr. Davis, of Massachusetts, offered a resolution which was adopted, directing the Secretary of War to furnish the House with the proceedings of the Commission in the case of the awards for the capture of Booth and Harrold.

Mr. Collom, of Illinois, from the Committee on Foreign Affairs, reported back two joint resolutions of the Senate authorizing Admiral Paulding and Commodore Rodgers to accept donations from the King of Italy in recognition of their services rendered to the frigate Retalia, which were considered and passed.

Mr Raymond obtained permission to make a report from the Committee on Foreign Affairs. He stated that some days since a resolution was referred to that Committee, calling on the Secretary of the Navy to send armed vessels to the fisheries adjacent to the British Provinces. He was instructed to make a preliminary report. It might be of some interest to the House to state the circumstances which had made the present attention to this subject a matter of necessity. It grew out of the abrogation of the Reciprocity Treaty of 1854. The original right of the Americans to partake in the fisheries on the coast of Newfoundland had been enjoyed in common with the other colonists previous to their independence, and had been recognized as an existing right by the treaty of 1783, it was not a concession, but a right admitted, and recognized as a right under that treaty.

The Americans had continued to fish there till the war of 1812. By the treaty of 1814, no provisions had been made for the subject; the American Commissioners who were authorized to negotiate at Ghent, having been especially instructed by their Government not to allow the right of fishing on the coast to be drawn into the question at all. The matter had been, therefore, left precisely as it had been before under the treaty of 1783, which admitted their right to fish, but disturbances had occurred between the rival fishermen, which led to the convention of 1818, Messrs. Gallatin and Rush acting on the part of the United States Government. By that convention the Americans renounced and received the right to fish within three miles of the shores of the British provinces. That was not a concession by Great Britain, nor a restricting of any right or any privilege; it was the renunciation by the United States of the absolute right to participate in those fisheries which the United States had enjoyed from the beginning, and which had been expressly recognized previous to the treaty of 1783. The United States had renounced the right of fishing within one marine league of the coast under the Convention of 1818. The Americans still continued to fish until 1841, when the Provincial Government claimed the right to exclude American fishermen to a greater extent than three miles from the coast, putting upon that claim an entirely new interpretation, namely, that the line by which the three miles were to be measured was to be drawn from headland to headland of all the bays along the coast, including the great Bay of Fundy, the Bay of Chaleur, Northumberland Straits, the Strait of Canso, &c. That would have excluded American fishermen from some of the most valuable fishing grounds on that coast. The American Government never admitted the justice of that interpretation. In 1845, by a remonstrance of Mr. Stevenson, the then Minister to England, the matter was brought to the attention of the British Government. A case was then made up by the provincial authorities and submitted to the law officers of the crown.

Mr. Raymond called attention to the statements of the London *Times* that war vessels had been placed on the coast to protect British rights. Our Government should do the same. He did not anticipate a collision, but our interests in those fisheries were worth protecting at all hazards. He offered a resolution requesting the President to inform the House what steps have been taken, and to see what, if any further legislation be necessary to remedy that evil.

The resolution was adopted.

The Speaker presented a message from the President transmitting a communication from the Secretary of War, with accompanying papers in relation to grants of land made by acts of Congress, passed in 1850, 1853 and 1856, to the States of Mississippi, Alabama, Arkansas, Florida and Louisiana, to aid in the construction of certain railroads. These grants would expire by limitation on the 11th of August, 1866, leaving the roads for whose benefit they were conferred, in an unfinished condition, and the President recommends that the time within which they must be completed shall be extended for a period of five years, which was referred to the Committee on Public Lands.

Mr. Farquhar offered a resolution, which was adopted, requesting the Committee on Military Affairs to enquire into the expediency of authorizing the Quartermaster's Department to audit and pay the just claims of loyal citizens for horses, mules and other personal property seized and appropriated by the rebels under Morgan, in Indiana and Ohio in July, 1863.

Mr. Deming, from the Committee on Military Affairs, reported back, with amendments, a bill to revive the grade of General in the United States army. It was made the special order for Tuesday next.

Mr. Ancona, from the Committee on Military Affairs, reported back, with a substitute, the joint resolution expressive of the thanks of Congress to Major General Winfield S. Hancock for his meritorious and conspicuous share in the great and decisive victory at Gettysburg. The substitute was agreed to, and the resolution passed.

Mr. Ancona, from the same Committee, also reported a bill to extend the jurisdiction of the Court of Claims by giving it jurisdiction to hear and determine all claims of Paymasters, Commissary, subsidized and other disbursing officers of the United States, for relief from responsibility on account of losses of public funds or vouchers, by capture or otherwise during the late war.

On motion of Mr. Conkling, the bill was recommitted and ordered to be printed.

After a number of reports from the Committee on Military Affairs, the Bankrupt Bill came up on the motion to reconsider the vote by which it was rejected a week since. The vote in favor of reconstruction was 69 to 36.

Mr. Stevens called for the yeas and nays, which were ordered. The vote was taken and resulted: yeas 83, nays 45, so the vote rejecting the bill was reconsidered.

The final vote on the passage of the Bankrupt Bill resulted as follows: Yeas 70, nays 73. So the bill was rejected.

A resolution was adopted calling on the Secretary of War for a statement of all the artificial limbs bought for soldiers, from whom, for whom, and at what cost.

Mr. Schenck reported a bill allowing to paymasters in the rebellion one-fourth of one per cent. on all sums disbursed, as extra compensation for their labors, provided the sum is not to exceed one thousand dollars for a year of services.

The following business was afterwards taken up. The Senate joint resolution respecting the burial of soldiers who died in the military service of the United States during the rebellion. Considered and passed.

The Senate joint resolution respecting bounties to colored soldiers, and pension bounties and allowances to their heirs, was read twice and referred to the Committee on Military Affairs.

The Senate bill to provide for the revision and consideration of the statutes of the United States, was read twice and referred to the Committee on Judiciary.

The Senate bill granting certain lands to the State of Michigan, to aid in the construction of a ship canal to connect the waters of Lake Superior with the lake known as Lac La Belle, in said State, was read twice and referred to the Committee on Public Lands.

Mr. Kasson reported a bill directing the issue of a five cent coin, copper and nickel. Passed.

Mr. Donnelly introduced a bill to establish a Northwestern Land District.

Adjourned.

THE NEW YORK COLLECTORSHIP.

Fenian Congress Proceedings.

NEW YORK, April 10.—A rumor on Wall street this evening has it that Mr. Depew is appointed Collector of the Port.

The Fenian Senate has been convened in this city by President Roberts. The address he has issued is mainly devoted to the condemnation of the O'Mahoney faction. A promise of hostilities is given in the statement that General Sweeney has been doing good work as a speaker, but he must now give up the rostrum for the field.

The Irish National bonds, ordered by the Fenian Congress are to by ready next week.

After requesting the Senators to make an investigation of the affairs of the organization, President Roberts thus speaks of the probability of taking the field:

"We are using every effort to take the field rapidly, and we must be supplied with the means to enable us to make good our promises, and with a renewed effort on the part of the Brotherhood all will be well. Since the Pittsburgh Conference we have done wonders. Everything considered, more has been done by us in the way of accumulation of war materials and organizing our army in six weeks than was accomplished by the Fenian Brotherhood in six years previously." He adds: "I am pledged to action before a certain time or to surrender my office, and I appeal to your honorable body to enable me to keep my pledge, and save our honor. Some of you also are deeply compromised for action."

Sanitary Measures in New York—Robberies.

NEW YORK, April 10.—The Board of Health is proceeding with vigor in the purification of the city. About four thousand nuisances have been ordered removed since its formation. Two hundred have been removed at the cost of the owners. The markets, slaughter houses, bone boiling houses, lime kilns and piggeries, are all to be moved out of the city. It is now preparing to make a thorough investigation from house to house, which will inform it of the condition of every house, the owner's name, &c., and enable the health officers to cause the removal of every nuisance dangerous to health. This house to house visitation will be completed before the hot weather of summer comes.

The *Tribune* signalizes its 25th anniversary by appearing in a new and much enlarged form. Its proprietors have invited a large number of editors and friends to an elegant entertainment at Delmonico's this evening.

Bill Increasing Paymasters—Controller's Decision—Allowances to Navy Officers.

NEW YORK, April 10.—The *Tribune's* special says: The Senate Naval Committee will report back to the Senate the House bill to increase the corps of Paymasters in the regular Navy, with a clause requiring the appointments to be taken from the Acting Assistant Paymasters. With this amendment there is no doubt of its passage.

The Second Controller yesterday decided that whenever the account of a discharged officer or soldier has been settled, and his travel pay adjusted, under the 15th section of the act of January 28th, 1813, or the 5th section of the act of July 22d, 1861, it is not legal nor competent for any disbursing or accounting officer to reopen accounts for the purpose of making additional allowance for constructive service or constructive travel.

A month's sea pay is allowed to every officer in the Navy, by a law which has just passed Congress, for clothing lost during the war of 1861. Applications should be made to the Fourth Auditor, including affidavits that such clothing was not lost by the negligence or fault of the claimant, also a schedule of the articles lost.

CITY AND SUBURBAN.

The Shaeffer Habeas Corpus Case again in Court—A Conclusion Concluding Nothing.

The case of The Commonwealth *ex. rel.* Dunbar vs. Henry C. Shaeffer was again up, by adjournment, before Judge Mellon yesterday afternoon at 2 o'clock.

The relator appeared by his counsel, Messrs. Bayne and Shafer, and the respondent appeared "conditionally" (for the mere purpose of arguing as to the sufficiency of the service of the writ) by his counsel John M. Kirkpatrick and S. H. Geyer, Esqs. It was contended by these gentlemen, at considerable length, that the copy of the writ served was not, as required by law, "a true and attested copy," inasmuch as the *year* of hearing (1866) was not correctly set forth in the copy served. That in the original it read "1866," while in the copy served it read "186"—. They alluded to various authorities in support of their position, when the Sheriff asked leave to amend his return in accordance with the facts, which put an end to debate upon that point, the Court holding that the return as amended was sufficient. Relator's counsel then asked for an attachment, which was opposed by defendant's counsel, on the ground that the defendant had never been notified of the continuance of the hearing—their appearance being simply *de bene esse* (as the lawyers have it,) and "conditional" only for the purpose of arguing the sufficiency of the service of the writ, and not an "appearance" for the defendant generally; and that before any attachment could possibly issue, the defendant personally should have notice, because otherwise *non constat* he would have appeared and answered.

The Court thought the position well taken, and that before an attachment could issue, the defendant should have received personal notice of the adjourned hearing, inasmuch as the appearance of Messrs. Kirkpatrick and Geyer was "conditional" only, and for a specific purpose; that unless the Court was satisfied that the defendant had personal notice of the continuance of the hearing, they would not allow an attachment as prayed for by relator's counsel; and the most they could do would be to grant a rule upon the defendant to show cause why an attachment should not issue, which rule they would order should be served personally on the defendant. As he is not in the city, and a personal service of the rule is practically impossible, of course an attachment is a proceeding very decidedly and indefinitely in the future. Parties and counsel then left the court room, prior to which defendant's counsel asked leave to withdraw their appearance in every respect in his behalf, which was allowed by the Court. The Court then rose.

The Late Thomas Bakewell.

On Saturday last, at the first meeting of the Board of Directors of the Board of Trade, held after the death of Thomas Bakewell, the following resolutions were unanimously adopted:

Whereas, Thomas Bakewell, the first permanent President of the Pittsburgh Board of Trade, has in the ripeness of years passed from this life, we are forcibly reminded that although by reason of strength our allotted days may be prolonged, yet the hour surely cometh when man must cease from his labor; and although we realize with renewed strength that those whose counsels, energy and liberality we are accustomed to lean upon cannot remain with us always, yet in this knowledge, and in the faith that God is infinite in wisdom, we cannot but deplore that so liberal a hand, and so generous a heart has been taken from us: therefore

Resolved, That while in the death of any there is to some one a pang of sorrow, yet when after a long life filled with usefulness, with good will to men and with charity, with earnest endeavors to alleviate the distresses of mankind, and to promote the interests of his fellow citizens, a man whose life has so passed dies, a community sorrows, and more than ordinary expressions of public regret becomingly arise; and it is

Resolved, That in Thomas Bakewell, we recognize such a man, and sorrow that by his death the community of Pittsburgh has lost a friend, whose heart was ever open to the cry of distress, whose hand was always ready to assist in every good work, whose business probity and energy was an example for our young men, and whose life so full of kindness and charity, replete with public spirit and patriotism, and adorned by social virtues, is worthy the emulation of all.

Resolved, That in placing upon our minutes this record of the death of one who over *thirty years* ago became the first prominent President of the Board of Trade, and for fifteen years guided its more youthful actions, we do so, feeling that in his business career there was no act unbecoming the high standard of public spirit, business honor, and personal integrity, it was his duty as the chief officer of a Board of Trade to set up for the guidance and imitation of its members.

Resolved, That while we deplore the loss the City of Pittsburgh has sustained, we do not forget the keener sorrows of that immediate circle of relatives of whom he was as the father: The virtues of his private life we may not recount, but we may, entitled by our public loss to become sharers in the private griefs his death creates, venture to offer to those from whom he has been taken, so good a friend, so endeared a relative, our tenderest sympathies.

Resolved, That a copy of these resolutions, over the seals of the Board and the signatures of its officers, be presented to the relatives of Thomas Bakewell, and the same be published in the papers of the city.

GEORGE H. THURSTON, President.
W. W. WARD, Secretary.

A Fire Alarm Telegraph.

The subject of a Fire Alarm Telegraph, which has been agitated in this city, more or less, for the past two or three years, is likely to be brought before Councils at their next meeting. J. T. Elliott, Esq., who represents the American Fire Alarm Telegraph Company, is now in this city, for the purpose of presenting the claims of the system now in use by the company named, and for the main features of which patents have been obtained. It is perhaps enough to say, in favor of this system, that it has been adopted in New York, Boston, Philadelphia, Baltimore, Providence, St. Louis, Cincinnati and New Orleans, and that negotiations are pending for its introduction into other prominent cities. The object of Mr. Elliott's visit at present is to make known the advantages of his system, and have them properly presented to Councils. He is now in consultation with leading members of the Fire Department and the Councils, and after he has examined the "lay" of the city thoroughly, he can give close estimates as to the *cost*, which will perhaps form the principal barrier to the introduction of this or any other system. The information obtained from Mr. Elliott will be communicated to Councils at their next session, when the project can be discussed sufficiently to test the feeling of the body, and if further action is deemed advisable the subject can be referred to a special committee, or disposed of in such manner as may seem best. We have no hesitation in saying that a Fire Alarm Telegraph would prove beneficial to the city, but whether it would be prudent to incur the expense at this time is a matter for the Finance Committee to determine. We mention the subject merely to advise our readers as to what is going on, and to give them a chance to discuss the measure.

The United Presbyterian Theological Seminary.

A meeting of the friends of this institution was recently held in the Seminary, in Allegheny, for the purpose of considering a project for the erection of a Students' Lodge—a suitable building in which the students can be boarded at a cost greatly below what they are now compelled to pay. The venerable Dr. J. T. Pressly presided, and Rev. C. A. Dickey acted as Secretary.

Those present, with great unanimity, agreed in the opinion that the continued prosperity of the Seminary, and the circumstances of the students, demanded the erection of the building proposed. A plan was submitted, but definite action was postponed. Dr. Kerr made the very encouraging statement that over $7,000 had already been subscribed, and a considerable amount partially promised.

Dr. Kerr was instructed, with the co-operation of pastors and friends, to proceed to solicit further contributions with which to supplement the large amount already promised, and insure the speedy erection of the building. All contributions should be sent to "Rev. D. R. Kerr, D. D., Pittsburgh, Pa."

Another meeting will be held on the 18th inst., when it is expected that a plan will be adopted and the building put under contract.

New Homœpathic Hospital.

A meeting of the contributors of the "Homœpathic Medical and Surgical Hospital and Dispensary of Pittsburgh," was held at the Hospital building, on Second street, on Monday, the 9th instant, for the purpose of electing twenty-four trustees.

Hon. Wilson McCandless was called to the chair, and W. W. Mair chosen Secretary. In a few remarks the chairman stated the object of the meeting. He then read the act of incorporation, and on motion, it was agreed to proceed to the election of Trustees, which resulted in the following named persons being elected: *For three years*—Hon. Wilson McCandless, Maj. Wm. Frew, Jas. B. Murray, Wm. Metcalf, Edwin Miles, A. M. Wallingford, H. W. Oliver, Jr, and J. C. Burgher, M. D. *For two years*—George Bingham, W. W. Major, Wm. T. Shannon, H. Hofmann, M. D., Thos. S. Blair, R. W. Burke, Wm. A. Herron and James A. Hutchinson. *For one year*—H. Holdship, Jas. Caldwell, John Shephard, Edwd. Dithridge, M. Cote, M. D., D. H. Fralich, W. A. Gildenfenny and A. McFarland.

Court of Common Pleas.

Court met at nine o'clock. An effort was made by Judge Mellon (but to no purpose) to dispose of a lot of open cases, but no one answering either in the shape of counsel, parties, or witnesses, he had to soon give it up as a bad job. The Court then discharged the jury with thanks for their attention, and adjourned until Saturday morning at ten o'clock.

The remanets on the list will be carried over to the May list, which promises to be a very heavy one. Already it numbers about one hundred and fifty cases, and will doubtless number fifty or sixty more by the time the list is made up. Two venires for jurors will, we learn, be issued, and two courts be held for the purpose of a speedy and thorough disposition of the list, and all other open and unfinished cases, prior to the setting in of the warm weather. Suitors certainly cannot complain of "the law's delay" in this Court at least.

Held for Trial.—Some time since we noticed a difficulty which occurred at the beer hall of C. Kline, Liberty street, during which the windows of the room were smashed, and other damage done. Two of the participants, James Seins and Stephen Beach were arrested at the time, but having recently answered the warrants they were yesterday brought before Mayor McCarthy for a hearing, and held to bail to answer a charge of malicious mischief.

Ballou's Monthly Magazine for May is thus early in the field. It can be had of Gildenfenny, No. 45 Fifth street.

Central Board of Education.

The Central Board of Education met Tuesday evening, April 10th, 1866. Present, Messrs. Crawford, Getty, Lowe, Marshall, McCook, Sergeant and Brush, President.

Mr. McCook was appointed President *pro tem.*

The minutes of the last meeting were read and approved.

A proposition from Messrs. Barnes & Co., for the introduction of Monteith's Physical Geography, was read and referred to the Committee on Text Books and Grades.

The monthly reports of the Principal of the High School, Principal of the Colored School, and Secretary, were read and ordered to be received and filed.

Warrants were authorized in payment of the following bills, viz:

Melton Brothers, coal	$74 75
G. T. Schuchman & Co., Lithographing Warrant and Receipt Books	30 00

The following named gentlemen were elected Collectors of School Tax for the ensuing year: Minas Tindle, Second ward; Joseph Irwin, Fifth ward.

On motion of Mr. Lowe, adjourned to meet on the 24th inst.

Cultivation of Vocal Music.

There seems to be a growing taste throughout the country for the cultivation of vocal music. The "concord of sweet sounds" has a most salutary and happy effect upon all who come under their influence. In furtherance of this object a series of musical conventions were held in adjoining counties, commencing on the 4th of December, 1865, and closing on the 5th of March, 1866. These conventions were held in the following places in Armstrong county: Middlesex; one week, which re-assembled on the 25th and continued in session another week; Brady's Bend, January 15th, two weeks; Worthington, January 29th, one week; McVille, February 5th, two weeks; Brady's Bend, February 19th, two weeks; Salt Lick, March 5th, two weeks, and in Leasureville, Butler county, two weeks, closing on the 19th of March. These conventions were all well attended, and three sessions a day were held the first devoted to "Elementary exercises," a second to "Voice training and practical music reading" and the third to "Glee and Chorus Practice," varied to suit the general capacity and taste of the audience. At one of these conventions, fourteen Allegheny river pilots attended daily, at another, a clergyman of the U. P. church, six feet, six inches in height, took an active interest, whilst at another a man, wife and nine children were daily attendants. We may add that all these conventions were presided over and conducted by Prof. Edwin Sharratt, of this city.

Amendment to School Law.

The following communication has been received from the State Superintendent touching the amendment to the School Law:

DEPARTMENT OF COMMON SCHOOLS, }
Harrisburg April 5, 1866. }

By an act approved March 29, 1866, the time for the organization of the School Boards of the several districts in the county of Allegheny, except in the cities of Pittsburgh and Allegheny, is fixed upon the first Monday of June in each year. The Boards, therefore, that have not organized, will not meet for that purpose till that day. See "School Laws and Decisions," Page 27, Sec. xxxii. The outgoing Directors will remain members of the Board until the organization, and will be entitled to vote for County Superintendent on the first Tuesday in May. The new members of the Boards which were organized before the approval of the act referred to, will also be legal voters at said election.

CHAS. R. COBURN,
Supt. Common Schools.

Amusements.

OPERA HOUSE.—The engaging actress, Miss Mary Provost again appeared last night as Nell Gwynne, and was received with much favor. It is probably her leading character; at all events she seems well qualified to play the volatile beauty, and to faithfully delineate the deep undercurrent of the heart to which the frivolity of the court beauty seemed only as a mask. Miss Provost appears this evening in the beautiful French translation entitled "Lucie, the Persecuted." A farce will conclude the evening's entertainment.

PITTSBURGH THEATRE.—The versatile actor and successful delineator of eccentric characters, Mr. Brougham, will appear this evening in his own adaptation of Dickens' popular story "Dombey and Son," as Captain Cuttle. This play has much intrinsic merit in itself, which Mr. Brougham's rendition augments to a considerable degree. He will be well supported by the excellent stock company. The "Laughing Hyena" will also be performed.

Soldiers' League.—A large and enthusiastic meeting of soldiers was held at Odd Fellows' Hall, McKeesport, Monday night, for the purpose of organizing a Soldiers' League. Mr. Bowan was called to the chair, and Mr. Critchlow chosen Secretary. Major General Pierson was called upon and addressed the meeting, stating the object of the organization and the manner of forming it. He was followed by Maj. Gen Negley, and others. Various committees were appointed, and the meeting adjourned to meet next Monday night. This League will be one of the strongest in the county, and will fully number three hundred men. Leagues will be formed in Manchester, East Liberty, Braddock's Field, and Sharpsburg next week. This organization is not for political purposes, but to be of benefit to soldiers and to take care of the widows and orphans of those who fell.

Forgery.—Wm. Tuttel yesterday preferred a charge of forgery, before Mayor McCarthy, against Orrin D. Levis. The defendant, on Saturday night, entered the prosecutor's clothing store, corner of Wood and Sixth streets, and made purchases to the amount of $45, presenting in payment a check on the Allegheny Savings Bank for $65, and received twenty dollars in change. It was afterwards discovered that the check was a forgery. Levis was arrested, and on the hearing it transpired that he had written the body of the check, the signature having been executed by another party. He was held to bail to answer at court.

Relief of a Destitute Clerk.—We acknowledge the receipt of the following sums, for the relief of a destitute clerk, whose "tale of sadness" we published on Monday:

"Res Publica"	$50 00
"A"	1 00

These sums have been handed to the benevolent lady who communicated the facts of the case to us, as other sums will be, as soon as received.

Blockading the Pavement.—A party of raftsmen, who were blockading the pavement in front of the Red Lion Hotel yesterday, were ordered off by a policeman, and one of them politely told the knight of the mace to go to Hades. For his refusal he was escorted before his honor Mayor McCarthy, and fined $5, which he paid with very good grace, remarking that he supposed the officer was a raftsman, and that it was worth five dollars to know the law.

Larceny as Bailee.—Martin Leippe, of Lancaster, made information yesterday before Alderman Strain, against Charles Glenn, of Allegheny, for larceny as bailee. Glenn was entrusted as the agent of Leippe with the sale of a quantity of cigars valued at $328. He sold them, but retained the money, with the exception of $30, which he remitted in a draft. The defendant entered bail for a hearing this morning.

I. O. of O. F.—This week elections for Grand Lodge officers and Deputy Grand Masters are being held in the various Lodges, commencing on Monday evening last and continuing through the week. The candidates for D. G. M. in this district are M. Rush, of 540; C. L. Wuestenberg, of 530, and —— Rankin, of 431. The officers of the various Lodges of the county were installed during last week.

FOR GOVERNOR:

MAJ. GEN. JOHN W. GEARY,

OF CUMBERLAND COUNTY.

THE CHOLERA.

There are so many premonitions of the approach of the Cholera to the United States that those who may be taken unaware and unprepared will have no reasonable pretext for finding fault with their own stupidity. After slumbering during the winter, it is again advancing through Central Europe. In Germany it has re-appeared with a degree of violence, and in Italy and France cases are multiplying. England has instituted rigid sanitary precautions. The chief cities on our Atlantic seaboard are moving with unwonted energy in abating nuisances and promoting cleanliness. Emigrant ships, recently arrived in the Canadas and the West Indies, report many cases of the disease. No matter what theory of the pestilence may be adopted, there is every reason to believe it will shortly make its appearance in this country.

So far, in Pittsburgh, Allegheny, and the adjacent boroughs, no special precautionary measures have been instituted, or, at least, on a scale commensurate with the occasion. The comparative exemption from suffering of this locality, during former visitations of the plague, has induced a sense of security that may be disastrous. Last year, in Europe, the cholera defied all calculations based on precedents. Its eccentricities are astounding. It may develop the same peculiarities here, disregarding all variations of altitude, of humidity or dryness, or of density and sparseness of population. The part of wisdom is to be prepared, so far as human experience and sagacity can guard against so capricious and subtle an enemy. Will the authorities act?

MORE GRIEF.

The Democratic Association at Washington is not altogether happy. Rosy expectations that gilded the hour of its formation have faded into sombre apprehensions. It is far enough from being pleasant for ambitious and covetous gentlemen, who counted confidently on consummating a policy for the nation and securing honors, emoluments and contracts for themselves, to become convinced that they miscalculated the situation.

Mr. Florence, the personal friend of the President, Mr. Aiken, late counsel for Mrs. Surratt, Mr. Schade, late counsel for Wirz, and that whole set, had a season of agony on last Saturday evening. Nor did they have the prudence to hide their grief from public observation. They rather made a public parade of it. At a full meeting of the Association they undertook to devise plans for the future that would be more efficacious than those they had been prosecuting. The dominant idea seemed to be that the democratic party must be given up, as worn out, and a fusion of men from different parties, on the basis of the President's Policy, be secured, as affording the last chance for hope.

Senator SAULSBURY, of Delaware, could not restrain his disgust at the apathy of the President. He was Mr. JOHNSON's friend, but "he was tired of supporting a man who would not help himself." He did not see as there was much prospect of fusion; and was for sticking to the old organization. He believed to-day that a revolution is pending; and President JOHNSON would have better work for Southern men yet than hanging them. He believed to-day, that when JEFFERSON DAVIS left the Senate he was a better Union man than ABRAHAM LINCOLN. This he would say on the door of Congress before he got through.

We thought, at the start, if these people had been less in a hurry they would have made more haste. A season of lamentation will do them good.

DON'T BE TOO FAST.

Recently there has been an opportunity for gentlemen who are devoted to one policy or another, just as their personal interest happens to incline, to make a display of their unenviable characteristic. They have been flocking to Washington to proclaim their zeal for the President's policy, and their labors in support of it. They clamorously demand consideration in the shape of preferments. It would be well for these persons to remember that appointments to office under the Federal government, by the terms of the Constitution, are made "by and with the advice and consent of the Senate." That body has just asserted its authority in the government in a most impressive manner; and both Houses may soon be expected to take definite action as to the patronage of the government. The office-seeking crowd may as well stand back.

THE Brookville *Republican* says:

"The system of legislation which has been inaugurated this session at Harrisburg is beyond all precedent in any legislation in the United States. It has become outrageous; and Mr. Bigham, the other day, in referring to it spoke as a *man* should speak, and the people of the State will back him in those sentiments. Let us have fair legislation and be done with this corporative legislation. There has been too much of it already. It is becoming and soon must become the paramount question in Pennsylvania."

NOT a few democratic orators and journals, in their zeal to prevent extending the right of voting to the blacks, demonstrate, to their own satisfaction, that suffrage is not a natural right. We do not see on what other ground, than that treason is not a crime, they can oppose drawing the sting of rebel leaders by taking from them the ballot.

THE ERIE RAILWAY COMPANY have excluded all coal trains belonging to the Pennsylvania Coal Company from their line. This will force them to revise their contract with the Erie, or to revise their contract with the Delaware and Hudson Canal Company, and to renew shipments by boats.

THE refusal of the Senate of Pennsylvania to submit the question of a General Railroad Law to a vote of the people, shows how completely that body is under the control of the Pennsylvania Railroad Company.

THE Lehigh Canal Company has leased the Delaware Division Canal, and will consolidate the two lines, making a continuous water communication from Mauch Chunk to Philadelphia.

A REPORT is current in Washington, that Governor CURTIN has again been tendered a foreign mission.

MR. H. J. RAYMOND voted against passing the Civil Rights Bill over the veto of the President. In his newspaper, the New York *Times*, he says:

"Even in the minority there will be found the names of several members who, while adhering to the Executive view of the unconstitutionality of certain provisions of the Bill, are yet still strongly impressed with the conviction that *some* greater security than now exists should and must be had for the protection of the freedom of the South. It behooves thoughtful Southerners to remember that a true and satisfactory peace cannot be found until the Union men of the North are satisfied that every vestige of the slave system has been wiped out forever, and that every class, however ignorant or poor, or even brutalized, is placed on an equality before the law."

But, Mr. RAYMOND, the President's objections, as set forth in the veto message, cover so much ground as to make any additional "protection of the freedom of the South" possible, in conformity to his ideas. There was no way of reaching that desirable end but by vetoing the veto.

OF THE Schuylkill Coal Trade the *Miner's Journal*, of Pottsville, says:

"The quantity sent by railroad this week is 63,511 19; by canal, 38,726 10; for the week, 102,238 09 tons, against 93,401 tons for the corresponding week last year.

"The shipments are heavy and prices are a little firmer than they were last week. They were stiffened up a little by the advance on prices at the last New York auction sale. Second quality of coal is dull and prices low.

"There were turnouts at some of the collieries to resist a reduction of wages to meet the reduction in the price of coal. At several they have gone to work again at the reduced rates.

GENERAL NEWS.

NEW ENGLAND and New York are full of revised railroad projects, many of them conceived years ago, but held back for doubtfulness of profit. In Maine strenuous efforts are being made to secure stock to construct the long-talked-of line running from Waterville to Solon, by the way of Norridgewock; and in Vermont and Canada there is a movement for a road between West Farnaham, Canada, and the head of Lake Memphremagog. Canadians are to endeavor to raise $200,000, and the Passumpsic railroad is expected to furnish the rest.

THE Charleston *Courier* says, on the authority of a gentleman who has recently made a tour through the Southern States, that it is hardly possible to imagine the extent to which the small-pox prevails. All the large cities are more or less infected. In some places the freedmen only are the victims, while in others the white population are among the sufferers. Little attention is paid to discretion in medical treatment. Those who have the disease walk through the streets in the most indifferent and unconcerned manner.

AMONG the students at the college of which Robert E. Lee is President, are Benjamin Wood, Jr., son of Mr. Wood, of the New York *Daily News*; A. W. Pope, nephew of the Federal General Pope; Hugh Davis and R. Davis Farish, nephews of Mr. Jefferson Davis; W. W. Foote, son of ex-Senator Foote, late of Tennessee; J. W. Wilmer, son of Bishop Wilmer, of Alabama, and Charles Rives, son of Hon. Alexander Rives, of Charlottesville, Virginia.

THE UNIONISM OF RICHMOND.—A private letter from Richmond, says that of the officers elected at the late municipal election in that city, two-thirds of them formerly held commissions in the rebel army, and that the balance, with one single exception, were secessionists during the rebellion, or in some capacity or another identified with the rebel government.

THE newly elected borough authorities of Oil City are unable to get possession of the official records pertaining to the accounts of the borough. They are in the possession of the ex-Burgess, who refuses to give them up. The new board of officers are unable to tell from the records in their possession whether the city owes a hundred dollars or a hundred thousand.

AT A recent meeting at Vicksburg, Miss., to endorse the President, Colonel Joseph E. Davis, brother of Jeff. Davis, spoke in high praise of the President's reconstruction policy. The unavoidable absence of Jeff. Davis at Fortress Monroe alone prevented his cordial assent to the remarks of his elder brother.

THE steamboat men and merchants of New Orleans are drawing up memorials for deepening the ocean passes of the Mississippi. They call upon Western Chambers of Commerce and the Federal Government for aid. The foreign commerce has outgrown the former trade, and ships of heavy draught are necessary.

THERE is a divorce case now before the Chicago Courts which has a very humorous feature about it. Mr. Willis, the defendant, is one of twin brothers, partners in business, and the resemblance they bear to each other is so striking that the lady, who is charged with adultery, finds herself unable to identify the true Dromio.

A FELLOW who ought to know better, has just perpetrated the following piece of uncalled-for impertinence: "Life is short and women are many. Men have no time for a close examination of each one, and to her who crowds the best goods into show cases, is often awarded the highest prize."

IN boring for an Artesian well, near St. Louis, a five-feet vein of coal was struck at a depth of fifty feet, and a bed of superior fire-clay, twenty-eight feet thick, at seventy feet. Thus, our crazy oil borings all over the west, will often prove successful in a way very different from that intended.

COM. VANDERBILT is seventy, but active as ever. He has built and paid for one hundred steamers, and is now the largest owner of railroad stock in the United States. He controls both the Harlem and Hudson River roads, while his interest in the New York Central is not less than half a million.

A CITIZEN of Portland, on his way home a few nights ago, was stopped by a couple of villainous chaps, with a rough demand for the time. As if to pull out his watch, he drew forth one of Bailey's best six-shooters, with the quiet remark, "It's liable to strike *two* shortly!" He was carefully let alone.

A TRENTON correspondent says: "It is understood that the Governor has not power to fill the vacancy occasioned by the ousting of Mr. Stockton. The legislators are now going home. Senator Scovel has received a testimonial letter from the Democratic members of the Senate.

THE Owen county (Ind.) *Journal* says that on Sunday last the bodies of two infant children were found in the mouth of Indian creek where it empties into White river, a mile or two above Gosport. They had evidently been in the water for some time.

THE great enterprise of making a continuous avenue of trade between the Atlantic and Ohio by means of a canal between the James and the Kanawha rivers, has passed from the hands of a Virginia company to a French company.

A MOVEMENT is on foot at New Orleans, favoring the establishment of a bonded warehouse in that city. The Assistant Secretary of the Treasury has directed the surveyor of customs to ascertain if a suitable building can be obtained.

A LADY in New London, Conn., got up out of bed the other night, in her sleep, and walked to the cemetery, quite a distance, in her night clothes. On returning home she fell into a pond, getting completely soaked through.

ITALIAN BRIGANDS lately captured Mr. Wennerson, a rich Swiss, at Salerno, and did not release him till his family paid fourteen thousand ducats. Their first demand was for a million ducats, but this was refused.

It is rather hard on Christianity, that so many of the leaders in the late rebellion are represented as eminent for the soundness of their faith and the fervor of their piety.

A MAN in Hampshire county, Massachusetts, has his life insured for sixty-five thousand dollars. Rather a strong temptation for his wife.

JAMES W. BEEBE, dry goods merchant of Boston, has retired with a fortune of $4,000,000. Advertising bore him on to fortune.

MINNESOTA, as well as Wisconsin, has been visited by floods, which have done much injury.

GENERAL NEWS.

MR. WHIPPLE, of Riga, Monroe county, N. Y., who, with his family, was bound with cords on the night of the 28th of February, and his safe robbed of about $26,000 in U. S. and county bonds, has recovered all his property but $5,000 or $6,000, having received through the mail a package postmarked New York, March 27, which contained all the bonds except the amount above mentioned.

HARD times in the oil regions, according to the Pithole *Record*, of the 3d, which says that four-fifths of the taxes assessed by the revenue officers will be utterly lost by parties leaving town, or so disposing of their effects as to leave nothing for the collector to lay his hands upon.

THE Cincinnati *Gazette* has a special from Washington stating that a report to the Freedmen's Bureau from the Assistant Commissioner of Alabama giving an account of the murder of a number of negroes in Mobile by reconstructed rebels was suppressed by order of the President.

LIEUT.-GEN. GRANT was arrested in Washington on Saturday for fast driving. The General has taken a prominent part, we believe, in numerous other fast drives during the last five years, and this is the first occasion we have had to record of his having been arrested.

THE latest reports from the Louisiana crevasses are very disheartening. The whole parish of West Baton Rouge is under water, and almost equally unfavorable reports come from other parts of the State.

THERE is a proposition under consideration by some Senators to urge the expulsion of Hon. Garrett Davis from the United States Senate for the sentiments he uttered in his speech on Friday last.

THREE men in disguise attempted to rob and murder Mr. Rice, a few nights ago, three miles from Florence, Kentucky. They were taking him to the woods to murder him, when a slight noise scared them off, and he escaped.

THE President has issued an order to the heads of departments directing that preferance be given to men who have served in the army or navy, in making appointments to, or promotions in the executive offices.

GOV. OGLESBY, of Illinois, has issued a proclamation commending the observance of the 15th, as a day of prayer, in memory of the assassination of Abraham Lincoln.

MR. WM. L. BANINNG, President of the St. Paul and Superior Railway Company, a few days since left St. Paul for Europe, with $4,500,000 in bonds for negotiation.

THE Mississippi is rising fast. The upper rivers are pouring floods into it; and when the rise reaches the lower river great destruction of property is inevitable.

GIVE a man brains and riches, and he is a king; give a man brains without riches, and he is a slave; give a man riches without brains, and he is a monkey.

CUSTOM HOUSE statistics show quite a large sale and shipment to the South, of guns and pistols, with ammunition, from New York, for March.

B. DORAN KILLIAN, according to the statement of a prominent Toronto editor, informs the Canadian Government of the Fenian designs.

GOV. OGLESBY, of Illinois, has appointed Sunday, April 15, the anniversary of President Lincoln's death, a day of fasting and prayer.

THE friends of the bankrupt bill have hopes that it may be taken from the table of the House and passed before very long.

VARIOUS ITEMS.

GEN. LEE A WOMAN WHIPPER.—To the admirers of General Robert E. Lee, who were wont to hold him up to us as a model for the Christian gentleman, we commend the statement of Wesley Norris, one of the slaves on the Arlington estate, whose freedom was provided for in the will of Mr. Custis, but who was retained in bondage by Lee, the heir of the testator. Norris, in company with his sister and a cousin, ran away in 1859, but were subsequently recaptured. Norris, who is now in the employ of the Government, says:

"We were immediately taken before Gen. Lee, who demanded the reason why we ran away; we frankly told him that we considered ourselves free; he then told us he would teach us a lesson which we never would forget; he ordered us to the barn, where, in his presence, we were tied firmly to posts by a Mr. McGivin, our overseer, who was ordered by Gen. Lee to strip us to the waist and give us fifty lashes each, excepting my sister, who received but twenty; we were accordingly stripped to the skin by the overseer, who, however, had sufficient humanity to decline whipping us; accordingly Dick Williams, a country constable, was called in, who gave us the number of lashes ordered; Gen. Lee, in the meantime, stood by, and frequently enjoined Williams to 'lay it on well,' an injunction which he did not fail to heed; not satisfied with simply lacerating our naked flesh, Gen. Lee then ordered the overseer to thoroughly wash our backs with brine, which was done; after this, my cousin and myself were sent to Hanover Court House jail, my sister being sent to Richmond to an agent to be hired."

A woman whipper a Christian gentleman!

MILD WINTERS.—The *Gazette du Midi*, a French journal, publishes some facts respecting winters remarkable for their mildness. In 1172, 1289, 1421, and 1527, the trees in January were already in leaf, and the birds had begun to build their nests in the branches. In 1538 the gardens were filed with flowers on the first of February, and in Paris swimming parties were organized. The winter of 1763 was very rigorous throughout France, but this remarkable fact was observed, that at the town of Sables d'Olonne (Vendee), and six leagues around, the months of December, 1752, and January, 1763, were exempt from cold, while elsewhere the weather was very severe, and the mouth of the Loire frozen. That occurrence was remarked by the learned Le Condamine, who was then at Sable d'Olonne; he called the attention of men of science to the fact, but the reasons could never be ascertained. The mild winters of 1807, 1822 and 1853 had no pernicious effect upon the crops.

ROYAL SCANDAL.—A curious old scandal has turned up once more in the British Court of Probate. Prince Henry Frederick, Duke of Cumberland, fourth brother of George III., was privately married, before the royal marriage act, to Olive Wilmot, daughter of the rector of Barton-on-the-Heath, in Warwickshire. Her granddaughter, Mrs. Ryves, now claims under the declaration of legitimacy act, to be declared a member of the royal family. If she can prove the marriage, she is one, and one moreover in the actual line of the succession, ranking just after the King of Hanover, and this is the real issue on which the case will turn. It seems certain that the marriage was at the time believed in, and the object of denying it was to conceal a bigamy; the Prince, like a true descendant of the Electress, having maried Mrs. Horton while Olive Wilmot was still alive.

OFFICIAL INFLUENCE IN FRANCE.—M. Hastrom, a banker at Poitiers, and ex-mayor of that town, lately absconded to escape from his creditors. He managed to get off very cleverly. He was at Paris when he found that he must fly, and the packet for Brazil, wither he had resolved to go, sailed the same day. He went to the Minister of Commerce, introduced himself as mayor of Poitiers, and stated that he wished to send a clerk to Brazil on a very important commission. At his request the minister telegraphed to Bordeaux to detain the packet. This gave M. Hastrom time to get on board, and he is now in Brazil.

TO KEEP EGGS.—The reason eggs decay is that the atmosphere penetrates the pores of the shell, evaporates the watery portions inside, and decay begins. A remedy is to immerse the eggs in boiling water for a few seconds. It is easily done, for a hundred eggs in a basket can be dipped at once into a tub of boiling water. They are to be held in the water long enough to count twenty at a fast rate. The heat of the water congeals the surface of the albumen immediately under the egg shell, thus forming an air-tight coating, which prevents evaporation and decay.

A CONSTANTINOPLE paper says that two antiquaries in making excavations in Syria, have discovered a Jewish habitation entire, the construction of which dates two centuries previous to the Christian era. Its rooms are furnished after the Egyptian style, and these gentlemen found in them the five books of Moses, the Psalms of David, and another book containing Hebrew poetry, entirely unknown.

SPECIAL NOTICES.

☞ AYER'S PILLS.—Are you sick, feeble and complaining? Are you out of order, with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangement of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

AYER'S AGUE CURE,

For the speedy cure of *Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of miasmatic countries.*

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

Prepared by J. C. AYER & CO., Lowell, Mass., and sold by B. A. FAHNESTOCK'S SON & CO., and by all Druggists. mh16:2mM&wF

☞ BETROUVEY'S TURKISH BANDOLENIAN HAIR TONIC. THE DRESSING AND RESTORER OF THE AGE. TURKISH BANDOLENIAN.

BETROUVEY'S TURKISH BANDOLENIAN. What can be more acceptable than anything that will beautify? that will restore nature's decay by stopping the hair from falling out, restoring its natural color, making it to grow in luxuriance and beauty, assist in putting it up according to the present style and fashion and keep it in place? *This Betrouvey's Turkish Bandolenian Hair Tonic* will do, and for proof we refer you to any person who has tried it. It is acknowledged to be the beautifier of the age, the only Hair Tonic and Restorer worthy of the name. In Turkey, in France, in England, in America—everywhere where the "Bandolenian" is known—it is pronounced the *ne plus ultra* of Hair Preparations. Remember, it is free from all metallic poisons that are contained in most Hair Colors and dressings. It is the extract of many flowers and herbs, beautifully put up, an ornament to the toilet.

FINANCE AND TRADE.

TUESDAY, April 10, 1866.

Our local stock market is entirely devoid of life or interest, and many of our stock brokers have turned their attention almost wholly to buying and selling real estate. It is true there is no material falling off in the demand for Bank Shares, but the extreme views of holders, who appear indifferent about realizing, has a tendency to retard operations. The recent disastrous steamboat conflagrations are depressing Insurance Stocks considerably, and many, we have no doubt, would be glad to get off with a "whole skin." As for Oil Shares, the less said about them the better. It is true, doubtless, that a few of those who operated to any extent in this class of stocks made handsomely, but it is equally true, that at least nine-tenths of those who invest lost, and lost heavily. The great proportion of these oil companies were originated for the purpose of swindling, and their projectors cannot properly be called anything but swindlers, and as such, deserve to be sent to the penitentiary. Government bonds are in fair demand, principally for investment.

—Sale of Stocks and Bonds, on Tuesday evening, April 10th, at the Commercial Sales Rooms, 106 Smithfield street, by A. McIlwaine, auctioneer:

Boatmen's Insurance Co.................. 26 00

—The bank panic in Rochester is subsiding. A despatch sent us on Saturday says:

A. Karnes, a private banker, who was not doing a large business in deposits, suspended to-day for want of currency. A run was made all day upon Powers' banking office, but made no impression.

Another dispatch says:

The American Express Company brought from New York over $1,500,000 in currency, of which $1,000,000 was for the banking house of D. W. Powers. It is now thought that the bank panic is nearly over here.

This run upon the private bankers of Rochester is doubtless the result of an unreasoning alarm. But the symptom is nevertheless an unhealthy one, and fairly indicates the shallowness of confidence existing under the prevailing artificial condition of affairs. It is not improbable that the payment of 4 and 5 per cent. interest upon deposits may have driven some bankers to employ their funds in enterprises unduly risky. Nor is it impossible that loans have been made upon collaterals, the value of which has suffered a heavy shrinkage during the fall in gold. Is it not the part of prudence to keep on hand an ample reserve of funds instantly available.—*Phila. Ledger.*

—The Import entries for the past week in New York, including the Dry Goods return, amount to $7,584,250, against the total entries of $2,392,675 same week last year. The Export clearances of domestic produce amount to $3,953,456, against $2,960,719 same week last year. The Export of Specie amounts to $206,000, against $400,743 same week last year. The Customs for the week are $2,853,010. The receipts of Cotton, coastwise and by railroad, are 19,942 bales. The number of emigrant passengers arrived during the week, 4,056.

—An excitement about coal has arisen in Spencer county, Indiana. Back of Grand View, the hills are reported full of coal, superior in quality to any west of Pittsburgh. The Lafayette *Journal* says: "A company has been formed in Cincinnati, with a capital of $300,000, which proposes to develop these mines to their fullest extent, as soon as the machinery can be purchased and put in operation. The vein of coal the company proposes working is about five feet thick, and the coal of an excellent quality. The company also contemplates the immediate construction of a railroad from Grand View to the mines, for the purpose of delivering coal in any quantity that it may be desired on the river bank."

Finance and Trade in New York.

GOLD AND STOCKS.

NEW YORK, April 10.—Stocks dull; U. S. 6s, '81 coupons, 104⅝; do '81 registered, 104⅜; 5-20 coupons, 1862, 103⅝; do '65 Treasury Notes, 7-30 2d series, 100⅞; Tennessee State 6s, 90⅝; Missouri 6s, 72¼; Ohio and Mississippi Certificate bonds 19, 24⅜; North Carolina bonds, 30, 92⅛; Erie, 74; Hudson, 105¾; Reading, 107½; Michigan Southern, 80⅛; Illinois Central, 114; Cleveland and Pittsburgh, 79¾; Chicago and North Western, 25⅞; do preferred, 54½; Chicago and Rock Island, 117; Pittsburgh, Fort Wayne and Chicago, 90⅛.

NEW YORK, April 10.—The market for Sterling Exchange is decidedly firmer this afternoon. Sales of prime bankers' bills were made at the close at 107. This rise is due to the fact that between one and two millions of 5-20 bonds are known to be on the way back from the other side, and exchange has been bought against them. Gold closed up at 126@126⅛. The Railway Share market was dull at second regular and last open boards, but there was no material change in prices. Petroleum stocks were dull this afternoon, but generally steady. Bennehoff, 1125; Buchanan, 35; Pithole, 330; Webster, 40; Bates, 200; Consolidated Grey, 1450; Kepp & Buell, 170.

DRY GOODS.

There is no particular change to-day in prices, but the market is unsettled, caused by the fall in gold and cotton. There is a fair amount of business doing, as buyers must have goods to keep up their stocks, though they take them in small lots. The demand for some styles of domestic goods is very fair, such as Bleached Shirtings and Sheetings, many grades of which are scarce. Prints—Cocheco, 21; Dunnell, 18; Freeman, 16; Hamilton, 19; Lancaster, 18; Merrimack W, 22; London Mourning, 16½. Ginghams—Clinton, 23; Glasgow, 22½; Lancaster, 25; Fall River, 21½. Brown Sheetings—Amoskeag A, 25; Amoskeag B, 24; Appleton A, 25; do. C, 21; do. D, 22; do. E, 18; Atlantic A, 26; Augusta, 22; Boot, 17; Laconia B, 22½; Laurel C, 20; do. H, 23. Spool Cotton—Clarke's six cord, 100. Brown Sheetings—Ludlow A, 18; Nashua Extra, 22; Naumkeag A, 22½; New Market A, 22; Pepperell E, 25, Pittsfield A, 18; Porter Mill B, 20. Bleached Shirtings—Androscoggin, 36½; Ballous & Son, 29; Bartlett's, 31; James, 30. Denims—Manchester, 37½; Massachusetts, 35; New York, 40. Cottonades—Farmer & Mechanics, 55; New York Mills, 65; Richmond, 55; Elk Mills, extra bleached, 52; do. unbleached, 50; do. colored damask, 50. Hoop Skirts—S. T. & A. T. Myers, 1½ inch tape, 20 to 40 hoops, 48@73c; 3 inch do., 68@$1,12.

New York Cattle Market.

NEW YORK, April 10.—The current prices for the week at all the markets are: Beef Cattle, first quality per head, $17@18; fair to good, $16@17; common, $14@14,50; inferior, $12@13,50. Cows and Calves, extra per head, $90@100; first quality, $80@90; ordinary, $65@75; common, $50@60; inferior, $40@50. Veal Calves, first quality per pound 12@13c; ordinary, 11½@12c; common, 10½@11½c; inferior, 9@10½c. Sheep and Lambs, extras per head, $9@10; prime quality, $7@8; ordinary quality, $5,50@6,50; common, $5@5,50; inferior quality, $3,50@4,50. Swine heavy; corn fed per pound 10¼@10½c; light and medium, 10¼@10¼. There has been another radical change in the market for beef cattle. The supply was small, the demand active, and prices are from ½@¾c per pound above the last week's quotations. Cattle were ordinary and the advance was purely the result of the falling off in receipts. Veals in steady and fair demand, at about previous prices. Sheep and Lambs in demand at the revised quotations above. Hogs dull and lower. The total receipts of all stocks at all the yards for this week were as follows: 3,941 Beeves; 138 Cows; 1,480 Veal Calves; 12,952 Sheep and Lambs; 7,380 Swine.

Boston Fish Market.

BOSTON, April 7.—Sales of Grand Bank and Bay Fundy at $4@6 per qtl for medium and large, including English and French, small, $2,50@3 per qtl. New Georges are in fair supply, with sales at $6,20@6,25 for lots, and $5,50@6,75 for whole fares. Hake are quiet at $2,50@3. Pollock are dull at $2@2,50 loose, and $3 per qtl, packed.

Mackerel are firm, with diminished receipts from the Provinces, and reduced stocks of all descriptions. The demand is moderate, but the supply will evidently be sold close up before the new catch is available. Sales at $16,50@17,50 for Nova Scotia and No. 1 Bay; $21@23 for Shore; $15,50@16 for No. 2, and $14 for No. 3. Alewives are firm and selling at $7,75@8. Pickled Herring are dull at $3@3,50 per barrel, for common and Labrador. Smoked Herring are selling at 50@60c per box for No. 1 and scaled. Salmon are nominal but held firmly at $48@51 per tierce.

Baltimore Coffee Market.

BALTIMORE, April 7.—At the opening of the week the cargo of the Winifred (3,100 bags Rio) was sold, to arrive, at 14½c gold, in bond, and we note, in addition, sales of 2000 bags Rio, ex-Amazon, at 15c gold, in bond; 500 bags Rio on private terms; 150 bags good do, at 18⅝@19⅛c, gold; 200 bags prime to choice do. at 20½@20¾c, gold, and 150 bags Rio at 22½@25½c currency, making a total for the week of 6000 bags. Rio ranges in price from 17@20¾c, gold, for common to choice, and we quote Laguayra at 21½@23c, gold, and Java at 28@28½c, gold. The imports this week are 2000 bags per barque Amazon, 3500 do. per barque Winifred, and 4600 bags per barque Wavslet, all from Rio. Total, 10,100 bags.

Cincinnati Market.

CINCINNATI, April 10.—Flour quiet and in moderate local demand for the higher grades, and prices are unchanged. Wheat steady; No. 1 $1,80@1,85; No. 2 $1,55@1,60. Corn dull, at 50@51c in the elevator, and 60@61c in new gunnies. Oats dull and unchanged. Whisky dull; small sales at $2,22. Provisions drooping; sales of 700 bbls Mess Pork at $25. Bulk Meats sold at 9½@12⅜@15½c for shoulders, sides and hams. Bacon dull, with nothing doing. Lard dull at 18c. Butter is very scarce; roll in barrels, 48c; choice fresh is retailing in the markets at 75c. Eggs 18c and firm. Gold 125¾.

Philadelphia Cattle Market.

PHILADELPHIA, April 9.—The cattle market is moderately active this week at about former rates; 2100 head arrived and sold at from 16@16½c for extra, 14@15½c for fair to good, and 10@13½c per lb for common, as to quality.

Sheep—Prices are better; 10,000 head arrived and sold at from 7½@8½ cents per lb, gross, as to quality.

Hogs—Are dull and rather lower; 1100 head sold at the different yards at from $13@14 the 100 lbs net.

Cincinnati Seed Market.

CINCINNATI, April 9.—Clover is still held at $6 for prime samples, and small sales were being made from store and orders filled at this price, but there is more offering at this figure than there are buyers for, and we understand one or two round lots sold at $5,75. Timothy is in moderate request at $3,75@4. Flax is steady at $2,25.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE,
TUESDAY, April 10, 1866.

The produce markets were dull and neglected to-day, and as the demand for most of the leading articles is restricted almost entirely to supplying the immediate wants of the retail trade, we have but few round lot operations to report. In prices, however, there have been no changes worthy of special notice.

ASHES—Pearls firm and in demand, and prices are well sustained. Sales of 15 tons Pearls at 12; 10 tons common Soda at 6; and 5 tons Refined do at 7.

GRAIN—Wheat is quiet and unchanged. Oats firm with small sales of prime Penna. at 46@47. Corn dull but unchanged; small sales from store at 65@70. Barley is quoted firm at 75@90. Rye—last sales at 83@85.

FLOUR—Is quiet but steady with a fair local demand at $8¼@8,60 for Spring Wheat; $9¼@9⅜ for half Spring and half Winter; and $10,25@10,65 for all Winter. Small sales of Rye Flour at $5½@5¾.

PROVISIONS—Bacon is quiet but steady, at 13@13½ for Shoulders; 15½@16 for Ribbed Sides; and 21 for Sugar Cured Hams. Lard is dull but firm at 18@18¼. Mess Pork quoted at $28.

POTATOES—Firm with a good demand, and we can report regular sales at $1,30@1,40 per bushel, and $3½@4 per bbl. Buckeye Seedlings are quoted at $4@4¼, and New Jersey Sweets at $9.00.

SEEDS—Flaxseed is in demand at $2¼, and the offerings are very light. Timothy Seed is selling in a small way at $3¼@3⅜, and Clover Seed is dull at $5¼@5½.

SALT—Very dull but unchanged; it is quoted nominally at $2,60@2,65 per bbl by the car-load.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
TUESDAY, April 10, 1866.

CRUDE—The business in Crude was again light to-day, comparatively speaking, the transactions being below the usual average, and the market is dull and weak, with a supply considerably in excess of the demand, and prices are still tending downward. For 40 to 45 gravity, 13 cents, bbls returned, and 18, bbls included, may be regarded as the ruling quotations, while lighter gravities cannot be quoted above 12 to 12½. Sales of 350 bbls at 13; 700 at 13; 553, 2000 and 1500, part to arrive, all on private terms. The demand for shipment has fallen off considerably within the past few days, and refiners are buying rather sparingly, as they are laboring under the impression that prices will go still lower. Telegrams from Oil City report Crude dull at $4 to $4.50 at the wells, and $5 to $5,25 per barrel, at the mouth.

REFINED—The market for bonded oil seems to be getting worse and worse, not so much that demand is falling off, but prices are steadily receding. For immediate delivery in Philadelphia, 39 cents was the best offer to-day against 41@42 a few days since; while 39½@40 were the best figures named for May, against 42½@43 last week. For July, we are cognizant of an offer of 44 cents for one thousand barrels having been withdrawn to-day, the broker in Philadelphia telegraphing that he was unable to realize that figure at present. Free Oil is dull and nominal—small sales of standard brands at 53@53½ cents.

ARRIVALS—There is no falling off in the arrivals of oil by the river, as the receipts for several days past have averaged between ten and twelve thousand barrels. The arrivals reported to-day were as follows:

D. M. Edgerton	1240	W. P. Logan	5000

ALLEGHENY CATTLE MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
TUESDAY, April 10, 1866.

CATTLE—The market for cattle was active and firm this week, and with a light supply and good demand, both for home consumption and shipment, prices, as compared with last week, may be quoted a shade higher. The number of cattle on sale may be set down in round numbers at 700 head, of which one hundred and seventy-three were bought for shipment, and the balance, five hundred and twenty-seven head, were taken by butchers. The quality of the cattle on sale this week was much better than usual, and this almost makes up for the advance in price, together with the fact that drovers had to pay more for them in the West. Prime to extra fat cattle, such as our first class butchers are accustomed to buying, sold at from 7¾ to 8¼, gross, while common to medium grades brought from 5 to 7 cents.

SHEEP—Demand fair and market steady, and with a rather limited supply, prices were pretty well sustained, ranging from 5 to 7 cts gross, according to quality. Lafferty & Bro., retailed 180 head of fairish Illinois sheep for Logan, at 5 to 6¾; also, 50 head for Merrick & Doud, at 5@7, the latter figure for prime fat mutton sheep. The supply, apparently, was about equal to the demand, and we are not aware of any being left over unsold.

HOGS—There is next to nothing doing in this class of stock. The demand at these yards still appears to be confined entirely to supply the wants of the retail trade, and we give 9¼@10¼, gross, as the ruling quotations for fair to good averages.

RIVER, WEATHER, ETC.

The rivers are again receding, with ten and a half feet in the channel by the Allegheny marks last evening. The weather continues clear and pleasant, and very favorable to operations at the wharf.

The Glasgow, from Cincinnati, is the only transient arrival we have to record. She had a very fair freight list. The Grey Eagle, from Parkersburg, was due last night, and will doubtless be found in port this morning. The Emma Graham cleared for Zanesville on time with a large number of passengers, and the Leni Leoti left for Parkersburg about noon.

At the Allegheny wharf business seems to be picking up a little, though there is still, in all conscience, an abundance of room for improvement.

The Ida Rees and Belle arrived from Oil City since our last report, and the Echo cleared for that point last night with a fair trip, including quite a number of passengers.

The Leonidas, from St. Louis, is due to-night or to-morrow.

The Robt. Moore had not got off for Cincinnati when we left the wharf, but she would doubtless get out during the evening. She would have about all the freight she could take.

The Columbia, Capt. R. J. Porter, did not get off for the Upper Mississippi, as expected last evening, but she will positively leave this forenoon. The clerk, Mr. J. W. Clarke, will see that passengers receive every proper attention.

The Delaware, R. W. Harton, is next on the list, and will commence business at once.

The Financier, Capt. Darragh, Mr. J. W. Russell, clerk, leaves this afternoon for New Orleans, and passengers and shippers should bear this fact in mind.

The Argonaut No. 2, Capt. H. C. Richmond, is filling up rapidly for St. Louis, and will be ready to take her departure this evening or to-morrow. She will be followed by the Importer, Capt. Noss.

The Kate Robinson, Capt. Robt. Robinson, will be first boat out for Missouri River, and she will be followed by the Nile, Capt. W. B. Haslett.

The Kate Putnam and Nora were advertised to leave Cincinnati for Pittsburgh on Monday, and the Phil. Sheridan arrived there on Sunday.

The New York *Express*, of the 29th ult., says: "The rates of freight are now down to a point at which railroads can not make any money, and still the steamboats keep underbidding. The railways offer to take flour from St. Louis to New York at $1,40 per barrel, and they cannot make it pay at this rate. But steamboats take it down the Mississippi River, and send it to New York, via New Orleans, at the same price, and find it profitable. A large business will be done between this city and the Southwest and West by this route, which must result very disadvantageously to the railway interest."

The New Orleans *Times* of the 4th says: The Julia came in from St. Louis with a good trip, and departs again this evening. Among the passengers who came by the Julia, yesterday, was our friend Mr. S. D. Young, the clerk of the Maggie Hays. Mr. Young leaves in charge of the office of the Maggie Hays, which leaves this evening for Cincinnati. Captain D. L. Hendrickson has command of the Hays.

Roback's Stomach Bitters

After years of experience and trial, have proven to be the best remedy extant for all complaints where a tonic and stimulant are required. It is admitted by our most learned physicians that DR. ROBACK'S BITTERS combine the properties of a gentle laxative, an efficient anti-bilious agent, and the best stomachic known to the world.

ROBACK'S

BITTERS should be used by convalescents to strengthen the prostration which always follows acute disease.

In the bilious districts of the West and South there has, for a long time, been much needed, an article of Stomach Bitters, which, if taken in proper quantities and at the proper time, are a sure preventive of

Bilious Fever, Fever and Ague, Liver Complaint, Dyspepsia, Indigestion, Jaundice, Kidney Complaints, and all Diseases of a similar nature, and

a preventive for bilious derangement, regulating the system, and giving tone to the digestive organs, than any other known remedy.

Now that the war is over, there will be thousands seeking homes in the South. No person who values his life should go there without having constantly at hand a supply of these Bitters, as a safeguard against epidemics and maladies engendered by miasma and poison water.

Travelers to and all residents of, the rank bottoms of the west and south, and the valleys of the Mississippi and its tributaries, should provide themselves with the

All Diseases of the Lungs

A case of five years' standing cured by DR. KEYSER'S PECTORAL SYRUP.

PITTSBURGH, January 11, 1860.

DR. KEYSER:—My wife has been afflicted with a bad cough and difficulty of breathing for five or six years, which, for several years back, had gradually increased in violence. The complaint has been hereditary, and she had been treated by several physicians without any relief. In this state of her case I procured some of your PECTORAL COUGH SYRUP. I bought, the first time, a fifty cent bottle, which relieved her very much; I then called and got a dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine myself in a cold and cough. The medicine cured me by taking one dose. I express my entire satisfaction with the medicine, and you are at liberty to publish this if you desire it. WM. WILSON, Alderman, Fifth Ward.

PITTSBURGH, April 24, 1857.

READ THE TRUTH.—DR. KEYSER:—I have a daughter who has taken several medicines for a bad cough without benefit, among them Ayer's Cherry Pectoral. I purchased from you a bottle of your Pectoral Syrup, and before she had used half a bottle she was relieved. The second bottle cured her entirely of her cough. JOHN DARIN, Robinson street, Allegheny.

PITTSBURGH, December 21, 1863.

A GREAT CURE BY DR. KEYSER'S PECTORAL SYRUP.—I live in Peebles township, Allegheny county. I had a cough and spitting, which commenced about the 4th of February last, and continued eight months. I employed the best physicians in the country, and my cough continued unabated until early in October. At that time I was advised to try your Pectoral Cough Syrup, which I did, and after I had taken one bottle I was entirely free from the coughing and spitting. I had despaired of ever getting well, and I think it should be known this this valuable remedy will do for others what it has done in my case. JOHN C. LITTLE.

Witness: B. M. KERR.

PATTON TOWNSHIP, April 14, 1865.

A WONDERFUL CURE.—Some time ago an old neighbor of mine was very ill with a bad cough which every one supposed to be consumption. His relatives told me that he had taken every remedy they heard of without benefit; his brother came to see him die, and all were confirmed in the belief that he could not live. I had about the third of a bottle of your Pectoral syrup, which I gave him, and it entirely cured him, to the astonishment of all. What makes the case more remarkable, is the extreme age of the man, he being about eighty years old. I have no doubt the Pectoral saved his life. JOHN McGINNIS.

DR. KEYSER'S PECTORAL SYRUP IN BLAIRSVILLE.—Please send me another supply of your valuable Pectoral Syrup. Almost everybody around us has the cold, and are enquiring for "Dr. Keyser's Pectoral Syrup." We have sold sixteen bottles the last week, and are now entirely out. Mr. A. Alter and Mr. P. Maher, both of Blairsville, Pa., told us they would not be without it in their families. In fact, all who use it once want it again.

Yours, respectfully, J. S. WATTERSON & SONS.

January 30, 1866.

PITTSBURGH, November 14, 1865.

DR. KEYSER:—Although not an advocate of Patent Medicines, in general, it affords me pleasure indescribable to recommend your PECTORAL SYRUP. As a medicine, it is well worthy the attention of any person who may in any manner be afflicted with coughs, colds and hoarseness of any kind, and for the peculiar qualifications for removing all that disagreeable sensation attending a severe cold.

I have been, more or less in my life, affected with the severest of colds and hoarseness. At times my throat would become so closed as to prevent my speaking above a whisper, and by taking a few doses of the above Syrup it would relieve me entirely.

In recommending this medicine, I must unhesitatingly say that it is the best remedy I ever found, purporting to cure the above, nor should any family be without this remedy for diseases so prevalent.

Yours, most respectfully, EDWARD J. JONES, Cashier Citizens' Deposit Bank.

STEUBENVILLE, Ohio, March 14, 1865.

I have used Dr. Keyser's Cough Syrup for a bad cough of several years standing, and can cheerfully say it is the best medicine for the same that I have ever taken. J. W. PRICE.

COL. PRATT AND DR. KEYSER'S PECTORAL SYRUP.—DR. KEYSER—Dear Sir: Excuse the delay of my acknowledging the excellence of your Pectoral Cough Syrup sooner. I take great pleasure in saying that it is all you say it is. It knocked the noise out of my cough, and the worst one I was ever afflicted with. I have not used more than one-half of the bottle, and I can and do wish that all who are afflicted would give it as fair a trial as I have done, and they will be proud to say, "It is no quack medicine. I would not suffer another such an attack for any consideration, or at any cost. I am confident I can breathe more freely than I ever did. I shall always acknowledge a debt of gratitude for inventing so excellent a remedy. You are at liberty to use my name in this regard as you think proper. T. F. PRATT, Messenger Common Council, Pittsburgh, Pa.

N. B.—I am no stranger to my fellow-citizens, and all who entertain doubts can consult me personally. T. F. P.

ANOTHER NEW CERTIFICATE.—DR. KEYSER'S PECTORAL SYRUP.—I had been troubled with a cough and cold for several weeks—so bad that I could not sleep. I had the advice and prescriptions from three of the best physicians in the city, whom I could name, but do not do so. I finally procured a bottle of your Pectoral Syrup, which cured me entirely.

(Signed) J. W. SIMONTON, No. 246 Liberty street, Pittsburgh, Pa.

January 9th, 1866.

"STOP THAT COUGHING."—"How can I do it?" Go to Keyser's, on Wood street, and get a bottle of his Cough Pectoral, and if that don't cure you, your case must be desperate indeed." This is a specimen of the colloquy one hears every day in cold-catching periods of the year. And we can, from actual experiment, cheerfully concur in the adviser's admonition as above, for we have tried the "Pectoral," in a most stubborn case, with entire success. Near two weeks ago we went to Pittsburgh, with one of the most distressing, contrary, mulish, unendurable coughs we ever experienced since our advent upon this mundane sphere. We coughed steadily and laboriously for one whole week, in hopes of tiring it out, but it was no go. In fact, it seemed rather to have improved by practice, and to have acquired strength, potency and distressibility by the operation. In this stage of the siege, we went to Keyser's, No. 140 Wood street, procured a fifty cent bottle of the "Pectoral," took it according to directions, and in forty-eight hours we were master of the field, the enemy having unconditionally surrendered, after a brief, but unequal conflict with so formidable an adversary as Keyser's famous Cough Pectoral.—*Brownsville Clipper, Dec. 14, 1865.*
